Finally, practical risk management programs, workshops and courses for performance-optimizing directors, executives, key decision makers, risk owners, managers and risk management professionals that want to improve:

- **Risk Oversight**
- **Strategic Planning and Tactical Execution**
- **Financial and Operational Performance**
- **Resiliency to Known, Emerging and Unknown Risks**
- **The Flow of Critical Decision-Making Information for Seizing Growth Opportunities**

AMXi risk management education and training courses apply the lessons learned from the Global Financial Crisis . . . and failures that continue to occur today. Our courses also reflect our thought leadership and the best practices from the most respected governance, risk management and compliance organizations including the Weinberg Center for Corporate Governance, Committee of Sponsoring Organizations, International Standards Organization, Risk and Insurance Management Society, Casualty Actuarial Society, Basel Committee on Banking Supervision, the Business Continuity Institute, and the Disaster Recovery Institute International. The AMXi body of knowledge has been reviewed and vetted by a large and diverse network of highly experienced third-party risk management professionals, board members, corporate executives, government executives, bank executives, hedge fund executives, Big-4 partners, corporate attorneys, government attorneys, federal regulators, international finance experts, subject matter experts, industry experts, and academic thought leaders. We can also tailor our courses to align with the specific needs, interests, level of detail, and capabilities of the organization, audience and/or industry.

Course leaders are seasoned, top-talent professionals with over 20-years of practical hands-on experience with the Big-4, or as corporate executives, government executives or subject matter experts. We also maintain financial independence from public accounting firms, rating agencies, insurance brokers, standards organizations, framework providers and software vendors. Our discussions, presentations and advice are uncompromised.

Glen Boyls, Economist and CBCP, has helped Fortune 500 clients achieve over \$1 billion in stakeholder value through financial and operational improvements. He is an Ernst & Young alumnus and an expert at leading cross functional teams through complex and challenging projects.

Ted Dann, CPA and ARM, has extensive controller and risk management experience, including risk mitigation and managing a company's total cost of risk. He is an enterprise risk management practitioner with experience applying frameworks, eliminating silos and protecting corporate reputations.

Warren Murdoch has extensive analytics experience in energy and financial markets. His expertise includes complex risk models, derivatives, hedging, collateralized debt obligations, fixed income, curves, credit risks, foreign exchange, commodities, scorecards, simulation tools, FEA, FinCAD and SAS.

Avoid having your risk management program becoming a risk unto itself – Call Glen Boyls at 703-864-7046 today.
